Subject: SB 650

To all making this decision:

Please don't do this. The Second Amendment still is part of our Republics Constitution. I realize some try to make it read differently than our Founders meant it. Please read the documents that helped them give our Bill of Rights in the full content. Weakening our gun rights only help evil progress without anyone stopping them.

Thank you for giving our stand thought and help your final decision. You all have someone to keep you safe and the rest of us need the same. There is a lot of evil of which my personal family has forever been altered because of it.

Rosemarie Corbin
